

QUICK START GUIDE

EA-AMP-HYB-2D-1000

EA-AMP-HYB-2D-2000

REAL. LIFE. SOUND.

INTRODUCTION

Thank you for purchasing Episode® Amplifiers. To get started, follow these instructions. For detailed specifications and configuration recommendations please see the product manual posted on our website.

This amplifier is a 2 channel (70V or 8ohm selectable on each) designed for applications requiring two channel stereo audio, or two mono zones of audio with different sources or levels. Channels can also be bridged to increase output power and send a singular mono signal.

SOURCE CONNECTIONS

Balanced and unbalanced connections are available as shown below. Line out connections may be used to send audio signals to other equipment.

SPEAKER CONNECTIONS

Use 14 or 16 gauge stranded two-conductor speaker wire. Connect the appropriate conductor to each screw terminal, observing correct polarity. Bridged markings are also shown below. Use burial rated wire as necessary for outdoor applications.

IP/OVRC CONTROL

Connect the amplifier to a LAN with internet access to activate an OvrC connection. Create a new account at www.OvrC.com, or log into an existing account. Select “Add a Device” and enter the device’s MAC address and serial number (this information can be found next to the service tag on the product). If OvrC locates the device, directions to continue setup will be displayed.

The local UI can be accessed without OvrC by entering the IP address into a web browser. Default login information is shown below:

- Username: episode
- Password: episode

The following settings can be changed in the web GUI:

- System Status
- Power On (Button, 12V Trigger, Audio Sense)
- Input/Output Configuration
- Audio Routing Configuration
- Network IP and Clock Settings
- EQ Presets for Episode Speaker Configurations
- Custom DSP Control

NOTE: To display the IP address of the amplifier, press the “MENU” button until “Device Info” is displayed, then turn the right-hand knob.

WARRANTY

2-Year Limited Warranty

Episode® Amplifiers have a 2-Year Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products that have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to a designated service center with an assigned return authorization (RA) number. Contact technical support at support@episodeaudio.com for an RA number.
