

EPISODE Acoustical Panels

For all Panel Sizes Including Standard Sizes: 24x24, 24x48, 18x72

WHAT'S IN THE KIT? (pictures not shown to scale)

4 - ½" Spacers

4 - Sheetrock Wall Anchors

8 - #6 1¼" Screws

4 - Snap Studs

4 - Snap Sockets

INSTALLATION INSTRUCTIONS

- 1) Before you start, level and measure your desired location for your Panel.
- 2) Place Panel backside up on flat surface.
- 3) Screw Snap Studs to back of panel using included screws.
DO NOT SCREW INTO THE CORNER JOINTS OF THE PANEL
- 4) Using a marker, pen, or pencil mark the top of the Snap Studs generously.
- 5) Pick up the Panel and place in desired location and press on the wall firmly.
 - a. This will create a mark on the wall for step 6.
- 6) Screw in Wall Anchors at the marked locations from step 5.
- 7) Secure the Snap Sockets on top of the Spacers to the wall, by screwing the supplied screws into the Wall Anchors.
You should have the Spacers attached to the wall, not the Panel!
(Panels are measured for optimum performance using spacers, but this is not required for use.)
- 8) **Finally, snap the Panel to the wall!**
