

WELCOME TO WATTBOX™

WattBox™ Power products are designed specifically for Custom Integrators to offer maximum flexibility for installation.

KEY FEATURES

Surge Protection with Fireproof MOVs – Advanced Ceramic MOV technology reduces risk of fire from surges.

EMF/RFI Filtration – Eliminates AC noise to improve picture and sound quality.

IMPORTANT SAFETY INSTRUCTIONS

Please read and observe the following safety points at all times.

WARNING – Power Sources

Do not plug this Component into a power outlet that differs from the source indicated for safe use on the Component. If you don't know the type of electrical power that is supplied to your home, consult your local power company or a qualified electrician.

WARNING – Grounding and Polarization

Do not force the Component plug into an outlet that is not designed to accept a three-wire grounded-type AC plug (a three-prong plug). This plug is designed to be inserted into a grounded-type outlet only. If this plug doesn't fit directly inside the outlet, do not attempt to force a connection.. Never attempt to dismantle the plug in any way (or to alter the power cord). Do not attempt to defeat the grounding feature by using a 3-to-2 prong adapter. If you have questions about grounding, consult your local power company or a qualified electrician.

This Wattbox™ component requires a properly grounded outlet for safety and to protect connected equipment. If you're not sure if your home's electrical wiring is properly grounded, have it checked by a qualified electrician.

If any rooftop devices such as satellite dishes, antennas, or any other component with wire being used that connects to the Component, be sure the wire(s) is properly grounded. This protects against voltage surges and static charges.

Do not place any antenna near overhead power lines or any other power circuit. Do not touch any power line or power circuit. Doing so may cause severe physical injury or possibly death.

WARNING – Liquid: Avoiding Electrical Shocks

Do not operate the Component if liquid of any kind is spilled onto or inside the unit. Do not operate the Component near rain or water that's spilled or contained (e.g., bathtub, kitchen or sink).

WARNING – No User Serviceable Parts Inside

If, for any reason, the Component is not operating properly, do not remove any part of the unit (cover, etc.) for repair. Unplug the unit and consult the Warranty Information section of this owner's manual for important details.

CAUTION – Exposure To Heat

Do not expose the Component to direct sunlight or place it near wall heaters, space heaters, or any enclosed space prone to temperature increase.

CAUTION – Proper Cleaning

In general, the only cleaning necessary for the Component is a light dusting. Unplug the Component from the wall outlet before cleaning it. Do not use any type of liquid or aerosol cleaners.

PACKAGE CONTENTS

(1) WB-200-1WT

(1) Owner's Manual

SPECIFICATIONS

AC Power	
Line Voltage	120V, 60Hz
UL Current Rating	15A
Voltage Protection Rating (UL 1449 3rd Edition)	500V
Energy Disipation (Joule Rating)	540 Joules
Surge Component	Ceramic Encased MOV
Protection Modes	L-N, L-G, N-G
Peak Impulse Current	3600A
Disconnect Circuitry	Yes
Thermal Fuse	Yes
Outlets	
Type	NEMA 5-15
Numer of Outlets	1
EMI / RFI Noise Filtration	40 dB, 150kHz to 100MHz
UL Certifications	UL 1449, UL 498

WARRANTY

SnapAV Surge Protector Lifetime Product Warranty

SnapAV warrants to the purchaser of any standard SnapAV surge protector that the surge protector shall be free of defects in design, material, or workmanship, and SnapAV will repair or replace any defective unit. For product replacement, see SnapAVs Surge Protector Product Warranty.
