

SET UP

The signal is received by the outside antenna from the cell tower, then AMPLIFIED and transmitted to your phone through the inside antenna. When the phone transmits, the signal is received by the inside antenna, then AMPLIFIED and transmitted to the cell tower through the outside antenna.

Steps:

1. Mount outside antenna (mounting kit with stucco screws provided)
2. Using CM400 cable, connect the dome antenna to the side of amplifier marked OUTSIDE
3. Mount dome antenna on the ceiling
4. Using CM400 cable, connect the dome antenna to the side of amplifier marked INSIDE
5. Connect the Power Cord (make sure the booster's power switch is in the OFF position).
6. Turn on the booster's power switch. The LED light will glow, indicating that the booster is ready to use.
7. Adjust dipswitches per the user manual's instructions for ideal reception
